

# Large projects coming up

# Projects coming up in top 5 'Enabling Environments'

## Cayman Islands

Projects: Bodden Town Solar Farm (5MW) and George Town Waste-To-Energy Facility (3MW)  
CAPEX: ~7 million USD each  
EE score: 4.3

## Jamaica

Project: Paradise Park Solar Farm (37MW)  
CAPEX: ~129 million USD  
EE Score: 4.3

## Martinique

Project: Albioma Galion II (40MW)  
CAPEX: ~211 million USD  
EE score: 5.0

## Guadeloupe

Project: Biomass/Coal Co-generation Plant (12MW)  
CAPEX: ~92 million USD  
EE score: 5.0

## Dominica

Project: Roseau Valley Geothermal Plant (100MW)  
CAPEX: ~308 million USD  
EE score: 5.0

# Projects in Smaller Markets

## Cayman Islands

Projects: Bodden Town Solar Farm (5MW) and George Town Waste-To-Energy Facility (3MW)  
CAPEX: ~7 million USD each

## U.S. Virgin Islands

Project: Commercial Wind Farm (5MW)  
CAPEX: ~18 million USD

## Nevis

Project: Geothermal Plant (9MW)  
CAPEX: ~39 million USD

## Montserrat

Project: Cork Hill/Weekes Geothermal Plant (3MW)  
CAPEX: ~1 million USD

## Saint-Vincent and the Grenadines

Project: Geothermal Plant (10MW)  
CAPEX: ~31 million USD
